P2 Term 1 Examination

ALBIAT TEST

**TERM 1
2026**

**English Language
PAPER 1
Composition**

Additional materials: 2 Blank Pages

Total Time: 1hr 30 min

INSTRUCTIONS TO ALL CANDIDATES:

1. Write your Index No. in the boxes at the top right hand corner
2. Do not turn over this page until you are told to do so.
3. Follow all instructions carefully
4. Choose **ONE** question only.
5. The use of calculators is **NOT** permitted

This examination entails 0% of your final grade

Section	Question No.	Awarded Marks	Maximum Marks
Section A			20
Section B			50

This booklet consists of 2 printed pages

Term 1 Examination - English Language

Section A: Prompted Writing [20m]

*You are given 3 different topics. Choose **ONE** and write on the given paper. Label your chosen question on the cover page and on writing paper.*

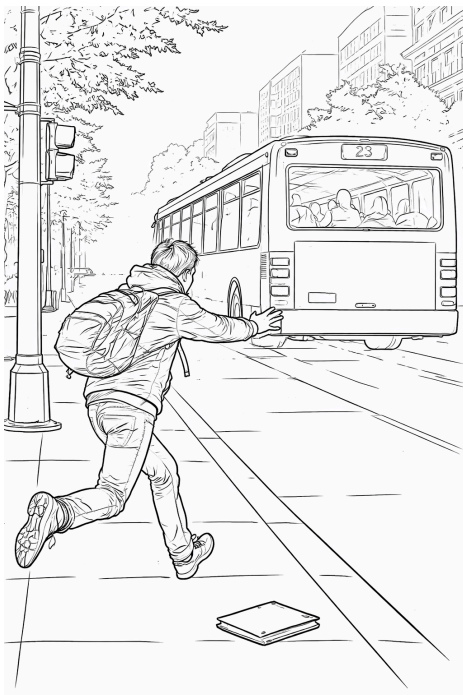

1. Tuition
2. Fell Sick
3. Movie

Section B: Composition [50m]

*You are given 2 different topics. Choose **ONE** and write on the given paper. Label your chosen question on the cover page and on writing paper*

4. Start your essay with
“Fire! Fire!” shouted the class monitor.

2. Write your essay about **being late**.

Write your essay in the given blank page and label your question clearly.

[END OF PAPER]

P2 Term 1 Examination

ALBIAT TEST

**TERM 1
2026**

**Hindi Language
PAPER 1
Composition**

Additional materials: 2 Blank Pages

Total Time: 1hr 30 min

INSTRUCTIONS TO ALL CANDIDATES:

1. Write your Index No. in the boxes at the top right hand corner
2. Do not turn over this page until you are told to do so.
3. Follow all instructions carefully
4. Choose **ONE** question only.
5. The use of calculators is **NOT** permitted

This examination entails 0% of your final grade

Section	Question No.	Awarded Marks	Maximum Marks
Section A			20
Section B			50

This booklet consists of 2 printed pages

Term 1 Examination - English Language

Section A: Prompted Writing [20m]

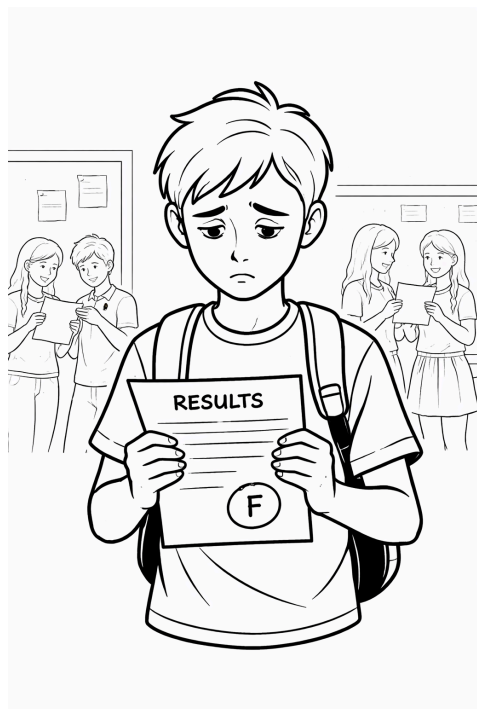

आपको 3 अलग-अलग विषय दिए गए हैं। इनमें से एक चुनें और दिए गए कागज पर लिखें। अपने चुने हुए प्रश्न को कवर पेज और लेखन पेपर पर अंकित करें।

1. चोरी करना
2. डरावना अनुभव
3. प्रतियोगिता हारना

Section B: Composition [50m]

आपको दो अलग-अलग विषय दिए गए हैं। इनमें से एक विषय चुनें और दिए गए कागज पर लिखें। अपने चुने हुए प्रश्न को कवर पेज और लिखने वाले कागज पर अंकित करें।

1. अपने निबंध की शुरुआत इस वाक्य से करें:
“मैं शिक्षक दिवस के लिए बहुत उत्साहित हूँ!” मैंने उत्साह से चिल्लाते हुए कहा।
2. असफलता के बारे में अपना निबंध लिखें।

दिए गए खाली पृष्ठ पर अपना निबंध लिखें और अपने प्रश्न को स्पष्ट रूप से चिह्नित करें।

Primary 2 Examination

ALBIAT TEST

**TERM 1
2025**

**Science
Question Booklet**

Additional materials: OAS sheet

Total Time: 1hr 30 min

INSTRUCTIONS TO ALL CANDIDATES:

1. Write your Index No. in the boxes at the top right hand corner
2. Do not turn over this page until you are told to do so.
3. Follow all instructions carefully
4. Marks will be allocated for the sound use of science and intuition, rather than rote memorization.
5. The use of calculators is **NOT** permitted
6. This examination carries no weightage.

Section	Awarded Marks	Maximum Marks
Open Ended		30
Essay		20
Total		50

This booklet consists of 7 printed pages

Mid Year Examination - Science

OPEN-ENDED [30 marks]

Answer all the questions in the blank page provided to you

1. Mrs John is a scientist.

(a) What is science? [1m]

Mrs John conducts an experiment. She places Living Thing **A**, **B** and **C** in three different boxes. All boxes contained a special Mylar bag, which absorbs all the oxygen around it. The boxes contained a special cold bar, which causes water to be collected into a pot. Food was provided to all the animals in the duration of the experiment.

(b) Using your knowledge of heat, explain how the “cold bar” collects water? [3m]

The results of the experiment is concluded below

How long did it take for it to die?	
A	7 minutes
B	13 minutes
C	Inconclusive*

*The time is too long for it to be concluded in a table.

(c) With reference to characteristics of living things, why did **A** and **B** die?
[2m]

(d) Mrs John concluded that **C** is a living thing. Do you think it is valid? Explain your answer clearly. [1m]

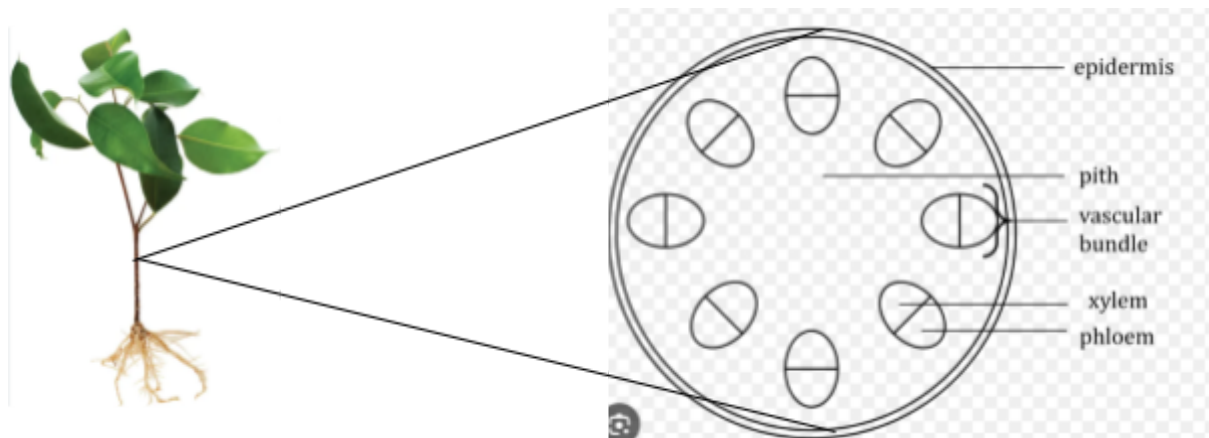

Object **A** is a Human. Humans typically survive underwater for a maximum of 30 seconds.

(e) Despite the presence of the Mylar Bag, suggest a reason for the duration of **7 minutes** before **A** died? [1m]

(f) Why are fishes able to survive underwater, but humans are unable to do so? Explain your answer clearly. [4m]

2(a) State **two** functions of a stem. **[2m]**

Below is a top cross section of a plant stem.

Xylem carries water and Phloem carries food around the plant.

(b) Explain which part of the plant the food in the Phloem is produced in?
What are other functions of that part? **[2m]**

In cold seasons, plants go through a process called *petrification*, where the vascular bundle containing the xylem and the phloem in the stem shrinks in size.

(c) Why do plants that undergo *petrification* die? Explain your answer clearly. **[2m]**

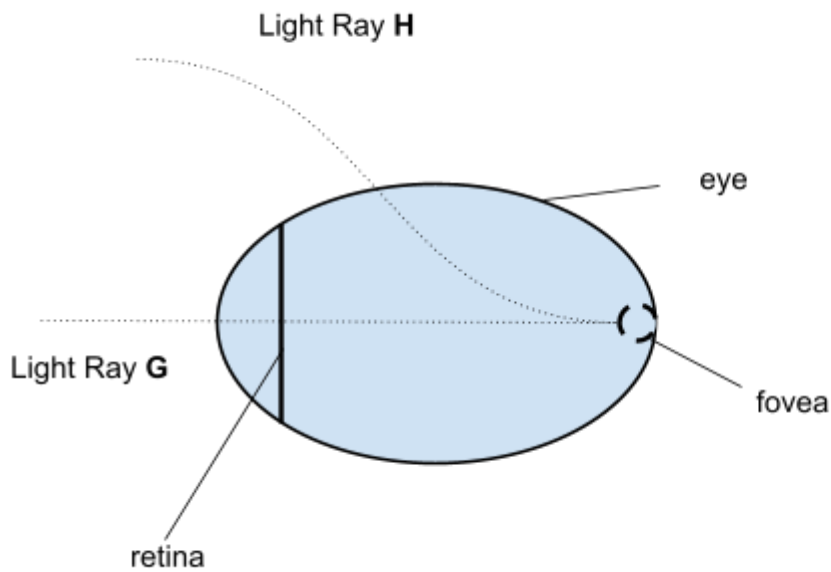

Pith represents the inner area near the vascular bundle. Certain plants that undergo *petrification* have *pith* that is absorbent.

(d) Explain how these types of plants survive, despite going through *petrification*. **[2m]**

3. In warm seasons, different sorts of animals protect themselves from the surroundings. Fill in the blanks below. **[4m]**

Class of Animal	How does it protect itself from the surroundings?

4. Retina is a part of a plant that allows light to enter into the fovea. Fovea is an area where light reaches, and allows the brain to see.

(a) Explain how a person is able to see an object? [3m]

(b) Using the diagram given, which ray is correct? Provide **two** reasons. [3m]

ESSAY [20 marks]

Answer all the questions in the blank page provided to you.

1.

(a) Define classification. **[2m]**

(b) State all the characteristics of plastic, and state one difference between plastic and fabric. **[3m]**

2.

(a) State three functions of heat. **[3m]**

(b) What are the three states of matter? Thus, explain how Powdered Object J disappears when subjected to fire? **[7m]**

3.

(a) Define life cycle. **[2m]**

(b) Draw the life cycle of a pig. **[3m]**

Answer sheet:

- 1(a) Science is the study of how the world works **[1m]**
(b) The gaseous surrounding air / water vapour is warmer than the solid cold bar. **[1m]** Heat moves from the warmer gaseous surrounding air / water vapour to the solid cold bar. **[1m]**. The gaseous surrounding air / water vapour condenses into liquid water, which is collected in the pot. **[1m]**
(c) Living Things breathe / take in air **[1m]**. They require oxygen from the air to get energy. **[1m]**
(d) Yes. C could have not been moving, thus Mrs John could not find out how long it took for C to die, thus it could be a living thing. **[1m]** **OR** No. The time taken for it to die was too long, thus it was a non living thing. **[1m]**
(e) There was oxygen / air in the box, thus A could survive. **[1m]**
(f) Full process **[2x2m]**

2(a) functions of stems. causes food and water to move around the plant.
keeps plant upright **[1x2m]**

- (b) Leaf **[1m]** It breathes in air **[1m]**
(c) Less water and food travels around the plant **[1m]** Living Things require food and water to survive, and without it, it will die **[1m]**
(d) Water can still pass through the stem, instead of through the vascular bundle. **[1m]** Living Things will still get enough water to survive **[1m]**

3

Class of Animal	How does it protect itself from the surroundings?
Insect	exo-skeleton [1m]
Mammal	fur / hair [1m]
Bird	feathers [1m]
Reptile [1/2m]	hard scales [1m]
Fish [1/2m]	

4(a) Light from a light source **[1m]** travels in a straight line **[NOT 1m]** towards an opaque object **[1m]**, and bounces **[1m]** into our eyes, causing us to see.

(b) G. **[1m]**. Light ray is supposed to travel in a straight line, not like H. **[1m]**
Light ray must pass through the retina to reach the fovea, not any other way.
[1m]
